Welcome to Our Community

The paths depicted on this map are low to moderate in difficulty. Not all are ADA Accessible. Some paths follow streets that may or may not have shoulders, sidewalks, or street lighting. You may have to walk in the travel portion of the lane. Walkers assume the risk for their own safety when walking on the routes indicated on this map. The paths depicted are not present nor future designated walking routes. If walking with your pet, we ask that you be considerate of others and plan ahead to take your pet's waste with you. Thank you. If you are looking for more aerobic paths, please contact the LFP Transportation Committee via City Hall at 206-368-5440.

This map is provided to you by the City of Lake Forest Park Parks and Recreation Commission in cooperation with Public Health-Seattle & King County to remind you that physical activity is one of the best ways to prevent disease. Walking is one of the easiest ways to get started. It is our hope that this map of neighborhood parks and walking routes will inspire you and give you new ideas of places to walk.

David Hutchinson, Mayor
Lake Forest Park

Dr. Alonzo Plough, Director
Public Health – Seattle & King County
