

KING COUNTY
Strategic Technology Plan

Table of Contents

I.	Executive Summary	1
II.	Vision.....	5
III.	Guiding Principles for Information Technology.....	7
IV.	Business Environment.....	9
	A. Strategic Goals and Objectives	9
	1. Improve/Expand Services	10
	2. Empower Employees	10
	3. Manage Data and Information	10
	4. Optimize Analysis, Assessment, and Improvement Practices	10
	5. Establish Communication and Collaboration.....	11
	6. Define Metrics and Performance Measures	11
	7. Strengthen Project Management	11
	8. Ensure Greater Public Awareness.....	11
	9. Increase Revenues and Control Costs.....	11
	B. Directions and Opportunities	12
	1. Implement Technology Initiatives	12
	2. Reorganize and Restructure.....	12
	3. Improve Processes.....	12
	4. Utilize Planning Activities	13
	5. Integrate and Establish Partnerships.....	13
	6. Utilize Cost-Reducing Technologies.....	13
	7. Enhance Skills	13
	C. Strategic Issues	14
	1. Funding Constraints	14
	2. Increased Need for Services.....	14
	3. Training Needs	14
	4. Loss of Knowledge Capital	15
	5. Downsizing Staff	15
	6. Partnership Challenges.....	15
	7. Efficient/Effective Use of Technology.....	15
	8. Adequate Resources/Facilities	15
	9. Management of Technology Development and Implementation	15
	10. Demand for Increased Public Information.....	16
	11. Dated Processes and Workflow	16
	12. Changing Environment and Business Models	16
	13. Need for Standards	16

V.	Technology Environment.....	17
	Commendations	17
1.	Staff Commitment	17
2.	Technical Skills	17
3.	Recognized Need For Change	17
4.	Newly Established Governance Process	18
5.	Computing Architecture Stability	18
6.	Wide Area Network.....	18
7.	Specialized Software	18
8.	Enterprise Computing	18
A.	Service Delivery.....	19
A1.	Service-Level Agreements/Performance Measurement	19
A2.	Support/Help Desk	20
A3.	Outsourcing	23
A4.	Development.....	24
A5.	Data Entry	28
B.	Operations.....	28
B1.	Asset Management.....	29
B2.	Business Continuity	30
B3.	Distribution of Technology	31
B4.	Standard Operating Procedures (SOPs)	32
B5.	Maintenance/Upgrades	33
B6.	Technical Security	34
B7.	Systems Administration	36
B8.	Documentation	38
B9.	Telecommunications	39
B10.	E-Mail Services	41
B11.	Voice Messaging.....	41
B12.	Data Management	42
B13.	Capacity Monitoring, Backup, and Restoration.....	45
C.	Architecture	47
C1.	Mainframe	47
C2.	Network.....	49
C3.	Internet, Intranet, and Extranet	52
C4.	Personal Computers.....	57
C5.	Integration	58
C6.	Operating Systems	61
C7.	User Interface/Office Automation.....	62
C8.	Servers.....	62
C9.	Databases.....	63
C10.	Data Warehousing.....	66
C11.	Telephone and Voice Mail.....	67
C12.	Wireless	70
C13.	Applications	71

D.	Management and Organization	89
D1.	Training	90
D2.	Centralized versus Decentralized Structure	92
D3.	Leadership and Management	93
D4.	Staffing	95
D5.	Governance/Oversight.....	96
D6.	Span of Control/Chain of Command.....	96
D7.	Privacy Management	97
D8.	Standards.....	98
D9.	Planning.....	99
D10.	Business Analysis	100
D11.	Telecommunications	101
D12.	ITS Organization	103
E.	Funding	104
E1.	Ongoing Funding	104
E2.	Planning for Expenditures	105
E3.	Financing	106
E4.	Accounting	107
E5.	Charge-Back Mechanisms	108
VI.	Strategies	109
A.	Service Delivery.....	113
A1.	Utilize service-level agreements as a standard way of doing business.....	113
A2.	Reorganize the help desk function around a more centralized, streamlined, and coordinated model.	115
A3.	Utilize the State of Washington's Digital Academy to promote learning.....	119
A4.	Use the Internet as a primary mechanism to deliver public information and services.....	121
A5.	Promote and support the development of the employee intranet and partner extranet to improve information services and business process support.	129
B.	Operations.....	134
B1.	Establish a comprehensive asset management function.	134
B2.	Develop standard operating procedures to guide all agencies' technology staff.	137
B3.	Strengthen system security.	140
B4.	Strengthen business continuity capabilities.	145
C.	Architecture	148
C1.	Standardize technology including infrastructure, hardware, and applications software.	149
C2.	Standardize Web-based technology used on the intranet, Internet, and extranet.	152
C3.	Standardize County technical approach for application integration.	156
C4.	Purchase and integrate top-quality commercially packaged software wherever possible and cost-effective — and with minimal customization.....	161
C5.	Consolidate hardware around the County.	164
C6.	Use broadband technology and a fully integrated PBX architecture as the future centerpiece to converge data, voice, and video transport.	167
C7.	Institute Countywide best practices for enterprise data management.....	175
C8.	Design and implement a common architecture to integrate workflow between Law, Safety, and Justice agencies.	179
C9.	Implement a standardized integrated portfolio of enterprise Financial and HR/Payroll applications.	183
D.	Management and Organization	188
D1.	Institutionalize performance measurement for technology.....	188
D2.	Develop technology design/plans for significant initiatives and projects.	191
D3.	Establish a comprehensive project management methodology.....	195
D4.	Reorganize technology functions around the County.....	198
D5.	Strengthen technology management and delivery capabilities through specialized training.	204
